

Chief, Okinawa Bureau

21 October 1948

Chief, FBIB

Report on Signal Corps Installation

- 1. Receipt is acknowledged of your memorandum dated 3 October 1948, subject as above.
- 2. Should you consider it necessary to visit Manila at some later date in order to determine recruiting possibilities, it is not considered necessary that travel orders be issued here in Washington, since you have been previously authorized by competent authority to make such trips. It is desired, however, that this office be advised as to your expected date of deporture and return.
- 3. Should you make a visit to Manila, you are requested to make a full investigation of the radio monitoring station at Los Pines and we could be interested to know about the equipment utilized, the linguists employed, the coverage effected as well as the quality of summer reception in this area.
- 4. It would be of interest to know the extent of damage incurred at Bolo Point as a result of the recent typhoon. It is understood here that Bolo Point is on the ice side of the island and would, therefore, suffer minimum damage from wind during the equinoctial periods.
